A deck without any visible fasteners!

## Secret Fixing & End Matched Deck System !

# Advantages

**Scrails** - Faster / Stronger / More Durable

**Stainless Steel Clips** - Faster / Stronger / More Durable

**DeckBone End Matched Joiner** - Faster / Reduces Waste By Up To 70% / More Stable Joint.

The DeckBone allows you to join Decking OFF or ON the joist saving you measuring and cutting time while also saving you on your decking waste. Reduces your waste by up to 70%!

As the two ends of the decking boards are joined together by the DeckBone, the timber is unable to twist at the joint forming a trip hazard as with traditional fixing methods. Not only will the DeckBone save \$\$\$ but will also contribute to lessening the drain on our precious resource. **ENVIRONMENTALLY FRIENDLY !**

**Concealed Fix** - This method provides the owner with a superior finish PLUS...

1/ No more deck splitting caused by moisture penetration around screws and nails.

2/ No more nails popping causing a trip hazard!

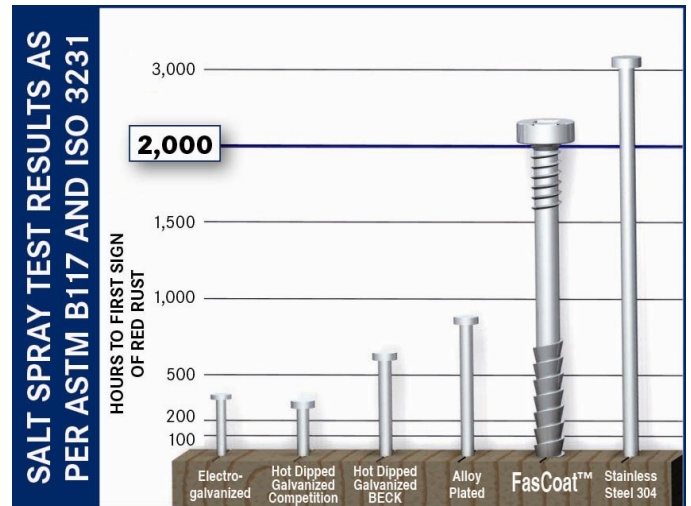

## 60% FASTER Than Screw Gun !

### SCRAIL- Shoots like a Nail & Holds like a Screw The Faster Fastener !

Scrails are a innovative gun nail with a screw shank and a Phillips Head which delivers added holding power while also allowing the SCRAIL to be withdrawn with a cordless screw driver.

In addition the SCRAIL has a highly developed coating system known as FASCOAT which is by far more weather resistant than Galvinised coatings. Fascoat surpasses the corrosion class 3 requirement.

Deck Master is an Australian company that provides innovative fastening systems to the construction industry. We distribute the TC-GUN, Stainless Steel Concealed Decking Fasteners, Scrails, DeckBone End Match Joiners, Weather Strip, Pre Grooved Decking Boards and other products through Timber and Hardware Merchants within Australia.
